MEMORIAL HOSPITAL
FOUNDATION

2014-2015
ANNUAL REPORT

2014 BOARD OF DIRECTORS

The Stevenson Memorial Hospital Foundation has a Board of Directors currently comprised of 10 individuals. They are responsible for the achievement of the Foundation's objectives and the ultimate performance of the organization.

Glenn Rae, Chair
Margaret Barber, Vice-Chair
Tim Macdonald, Treasurer
Kenneth Burns, Secretary
Tom Tworzyanski, Officer
Norman Grove
Irena Dent
Wendy Fairley*
Sheila Kaarlela*
Lindsay Richards

**Left during fiscal year*

CHAIR OF THE BOARD MESSAGE

On behalf of the Stevenson Memorial Hospital Foundation I would like to take this opportunity to say thank you and how grateful I am that our donors, volunteers, fellow board members, staff and hospital champions allowed us to accomplish so much together.

The Foundation depends on a consistent source of revenue, year after year and we are truly amazed at the generosity of this community and how it continues to reflect public response that Stevenson Memorial Hospital needs and deserves sponsorship. As a result of this wonderful donor support we have been able to contribute back to the hospital an average of over \$1 million in the last 3 years.

Public awareness of the needs at Stevenson significantly improved in 2014-15 due to increased media attention for community giving events, third party fundraisers and the 2015 Hospital Gala. Thank you to those individuals and organizations for your time and generous support.

We were all very saddened by the passing of our Foundation Board Chair, Glenn Rae. Glenn was a devoted member, leader and great supporter of the Foundation and I wish to recognize him for his many years of service and dedication during the past 9 years. He was a wonderful example of

commitment that should be admired and followed as we plan for the future of Stevenson Memorial Hospital.

With significant change in the future for Stevenson Memorial Hospital the Foundation looks forward to many more great accomplishments for our hospital. With increased demand comes increased need! Building and maintaining relationships with donors, businesses, organizations, hospital board members, staff and others will lead to another successful year and significant achievements for the redevelopment project.

The Foundation Board of Directors consists of a group of community volunteers who are on a mission. That mission is to raise funds in support of Stevenson Memorial Hospital! We go into 2015-16 knowing we continue to be consistent with donor interests enabling the Hospital to deliver excellent health care to our community.

Margaret Barber, Board Chair
Stevenson Memorial Hospital Foundation

Excellence in patient care is
one of our top priorities at
Stevenson

STEVENSON CEO MESSAGE

As President and CEO of Stevenson Memorial Hospital, I want to express my sincere gratitude to the generosity of our community and the tireless work of our hospital's Foundation in surpassing our revenue targets and exceeding our fund-raising goals. Your generous gifts continue to demonstrate to us the high level of trust you place in the Foundation. I am inspired knowing this community is 100% on board with our vision in Building the Best as we embark on our ambitious journey towards redeveloping this hospital.

I am always deeply touched when I hear stories from people whose lives have been positively impacted by the immediate, compassionate care they've received at Stevenson. Hearing these grateful patient stories is one of the most rewarding aspects of my job.

We rely heavily on the generosity of our donors to fund critical lifesaving equipment, and one recent example of this is our purchase of a new state-of-the-art Bone Density machine which was needed by our Diagnostic Imaging department. Hospitals in Ontario are mandated by the province to rely on their Foundations for life-saving equipment, technology and a portion of capital building costs. Through the hard work of our Foundation and the generous donations from our community, we are able to provide critical equipment that allows

improved advancements in health-care delivery and saves lives.

We are moving forward with our proposed redevelopment of this hospital and I encourage all of you to become informed and involved, because with an empowered community we increase our odds dramatically of making this new revitalized hospital a reality. I am honored to count our donors as true partners on this journey and together we can harness the power of philanthropy and make our vision of Building the Best a reality. We have an exceptional calibre of staff, Board members, volunteers, community leaders and donors, and your generous donations are an inspiration to us all. Your gifts validate our collective belief that as a community we can realize transformative change and achieve our dream of a new hospital that puts patients first, while offering high quality, safe care.

Jody Levac
President and CEO
Stevenson Memorial Hospital

YOUR DOLLARS AT WORK

This past year saw a focus of fundraising towards the hospital's annual equipment needs. The two main priority areas were the Refurbish a Room Campaign and the Cardiac Monitoring System for the Emergency and Medical/Surgical Departments. Other projects were also funded through our grant program and the philanthropic support of several family foundations. Through the support of individual donors, service clubs, businesses, foundations, and the Stevenson Memorial Hospital Auxiliary over \$1.2 million dollars was transferred to the hospital in the 2014-15 year for critical priority needs.

The Refurbish a Room campaign is a five year initiative, through which the hospital will replace all in-patient beds on the Medical/Surgical Department, along with new privacy curtains, window blinds, and bedside tables. The total cost of this project is \$320,000. In 2014-15, all window blinds and privacy curtains were replaced. All patient beds and side tables will be replaced over the next 4 years.

The Cardiac Monitor campaign is a \$600,000 campaign. Fundraising for this project will continue into the 2015-16 year; however we have already received commitment for over 50% of the total funds needed for this important project. This is critical, life-saving equipment when it comes to providing quality care for patients. Any patient who arrives at the hospital with

Staff stand next to the new Automated Medicine Dispensing Cabinets

chest pain, heart attack, shortness of breath, severe allergic reactions or trauma victims require immediate and continuous monitoring of their heart activity. Over 11,000 patients in the Emergency Department and Medical/Surgical Department are monitored by the cardiac system annually.

20 year old medication carts were replaced with automated medication dispensing cabinets in the Emergency and Medi-

cal Surgical ward. They are fully automated and all medications are secured inside a locked cabinet. Staff access cabinets with personalized PIN numbers, thus providing a record of who has accessed the medications. Narcotics and high risk medications are stored securely with quantities updated every time a medication is taken – no need to do extensive shift count of all narcotics. This provides more time for medical staff to be focused on direct patient care.

Through the support of a generous family foundation, the Medical/Surgical Nurse's station will be replaced. As the hub of the medical and support staff work area, this desk was desperately in need of replacement. The full renovation will be completed in 2015 which will include a new desk, new flooring, new computers and chairs. The station will also accommodate the new cardiac monitoring system and the associated technology.

A new Bone Density Machine was funded through a private family foundation. This new technology is digital and produces the best images in the industry. This is an enhancement from our current analogue images, which are sufficient but not excellent. BMD studies require a precise set-up. Variations between users can lead to less than ideal results. The newer system utilizes software to correct for user variation to ensure that each image is captured using the correct method each and every time. This means less time for the patient and a higher confidence in results.

The Foundation has continued to support the Hospital's redevelopment project through the provision of planning funds. The Foundation has seen some great work coming out of this planning phase and the community has been engaged to help support the decision making process.

FINANCIAL HIGHLIGHTS

The Stevenson Memorial Hospital Foundation is so grateful for all of your continued support. Thanks to you, we have been able to provide significant funds to meet Stevenson Memorial Hospital's many needs, which will impact the hospital and its patients tremendously.

COMMUNITY SUPPORT

DONORS AND VOLUNTEERS TO THE FOUNDATION HELP US CREATE MEANINGFUL CHANGE IN THE HEALTH OF THE PATIENTS AND FAMILIES.

We recognize that what we achieve would not be possible without the partnership of our community, our supporters and donors. Donor dollars support diagnostic and treatment technology. Donations ensure we have state-of-the-art equipment and resources to attract and retain the brightest and best healthcare specialists. The Foundation's special events are made possible by the time and talents of our dedicated volunteers who work tirelessly to make them successful. The support we receive from the community goes a long way to ensuring we make a difference in health care for residents.
