

Fall into Fitness in support of the Stevenson Memorial Hospital Foundation

[New Tecumseth, ON – October 26, 2020] – The Stevenson Memorial Hospital Foundation (SMHF) has created a new challenge for the community this fall in support of the *Because of you, we can* Capital Campaign: **Fall into Fitness**. Run, walk, dance – any activity that motivates you and set your own goal throughout the month of November. Challenge your friends and family to do the same! Pick a fundraising target and do your part for local health care.

Registration is only \$20 and the first 100 people who register and raise \$100 will receive a free light-up arm band.

“If there’s anything the last several months has shown us, it’s that an updated, redeveloped hospital is needed now for our community,” says Tanya Wall, Executive Director, SMHF. “The Foundation is currently creating ways for the community to help support the Capital Campaign that are fun and accessible for everyone. Every donation helps as we fundraise for the largest and most important campaign in our history,” she adds.

To register and set-up a fundraising page, please visit www.transformingstevenson.ca
