our growing community

TRANSFORMING OUR SPACE

Because of you, we can grow to meet the needs of our growing community

We began planning for the redevelopment of our hospital more than a decade ago. Today, we are making Stevenson Memorial Hospital's transformative vision into a reality. Our new and revitalized spaces will both reflect and support, the exceptional, high-quality health care Stevenson Memorial Hospital consistently provides and offer greater comfort and privacy for you, your family, and the community at large. Once completed, our brand new, two-storey, 100,000 sq. ft., wrap-around addition will more than double the size of our hospital and the expanded parking area will triple capacity.

Here's what you and your family can expect to benefit from when the work is completed:

- ✓ A greatly expanded Emergency Department with more clinic rooms
- ✓ Preservation of our helipad and a new ambulance bay and garage adjacent to the Emergency Department
- ✓ Increased number of patient rooms in the Inpatient Care Unit
- ✓ Construction of a new quiet room for Inpatient Care
- ✓ Our Surgical Services Department will more than double in size
- ✓ There will be more clinic rooms in Ambulatory Care (and dedicated spaces for consults/procedures)
- ✓ A much larger, newly outfitted Diagnostic Imaging Department
- ✓ An enhanced Birthing Unit with new labour and delivery rooms, reception and family/waiting area
- ✓ Renovations will also be made to many other areas of the hospital

EMERGENCY DEPARTMENT

Our Emergency Department accounts for over half of all hospital visits. Built in 1964, it was meant to accommodate only 7,000 annual visits; last year, with over 35,000 visits, we had more than five times that number! The new, much larger Emergency Department will feature an expanded waiting area and more clinic rooms. The admitting and registration area will also be expanded.

Because of you, we can provide exceptional health care close to home
