

"If it wasn't for Stevenson, he wouldn't be here today."

2018-2019 **ANNUAL REPORT**

Crystal Hollingshead's reason for supporting the Stevenson Memorial Hospital Foundation (SMHF) is simple.

If it wasn't for Stevenson Memorial Hospital (SMH), her son likely wouldn't be here today.

"The moment I am most thankful for was also the scariest moment of my life," Crystal said.

Three years ago, her oldest son Cooper had a severe asthma attack in his sleep.

Crystal and her husband, Glen, were jolted out of bed by a loud, high pitch scream and ran to Cooper's room. Cooper was standing up, blue in the face. Suddenly he passed out on top of her.

Crystal quickly realized he wasn't breathing, and started performing CPR, while Glen called 911.

Cooper was rushed to SMH, where they took him straight into the Emergency Department's trauma room.

"I realized we needed to stay out of the way. It took quite a while for them to get him stabilized and intubated because he was vomiting."

The Everett family is forever grateful that SMH was just minutes away in Alliston when every second mattered.

"If we didn't have access to a hospital so close to home our son would not be here today," Crystal said.

Once Cooper was stabilized, he was transported by Ornge helicopter to SickKids Hospital with his mom by his side.

Cooper spent nearly a week in the Intensive Care Unit (ICU) at SickKids before being moved to the respiratory floor.

They return to SickKids every three months for follow-ups at the Asthma Clinic.

But the experience at SMH is what sticks out in her mind the most.

"During the scariest time of our lives the incredible nurses and doctors made sure they kept us informed and calm. I can't say enough about the staff and how they helped to make such a scary time more manageable.

Crystal is so grateful she was CPR trained, and Cooper is too now. He received his CPR certification soon after the incident." He feels that's important for him to know how to do."

Born and raised in Alliston, Crystal and her family have used SMH's services many times. From asthma attacks, to surgeries, to broken bones, they're always glad to have their community hospital.

"Growing up in Alliston things have changed over time, the population has multiplied many times over and our small hospital has stayed the same. Somehow they manage to treat this constantly increasing population and provide great care."

Crystal volunteers on the New Tecumseth Memorial Run Committee, which raised more than \$16,000 for the Foundation this year through their 5 KM run. It's her way to give back to the Hospital that saved her son's life.

"It's the little things that add up that make a difference."

THANK YOU FOR A TRANSFORMATIVE YEAR

A message from Margaret Barber, Board Chairperson and Tanya Wall, Executive Director

When you walk through the halls of Stevenson Memorial Hospital (SMH), you can feel the impact of community investment everywhere you turn. We are continually inspired by the stories we hear from patients and loved ones, telling us how special SMH is to them and how much it impacts the quality of life of those who choose to live, work and play here. It is because SMH is so important to the fabric of our community that individuals, organizations, and businesses choose to join with the leadership of the hospital in supporting their vision of Setting a New Standard for Community Hospital Care.

This past year **donors gave nearly \$2.3 million in received gifts and future pledges to support annual priority needs, HIS, and redevelopment.**

Contributions enabled significant capital investments in the Emergency Department, Medical-Surgical Unit, Obstetrics Unit, Operating Room and Outpatient Clinics. Since the Government rarely provides funds for capital equipment, the support of the

community is the determining factor in the hospital's ability to purchase state-of-the-art, life-saving equipment.

As we conclude the 2018-2019 year, we are excited to launch our new Strategic Plan. Our new Vision, Mission and Values will guide us as we work together with our community to build a redeveloped Stevenson Memorial Hospital, one with sufficient space, innovative technologies, and modernized equipment to care for the thousands of people who come to SMH every year.

Together we will continue to transform care in our community, now and for generations to come.

With heartfelt thanks,

T. Wall

Stevenson Memorial Hospital Foundation

PRESIDENT & CEO MESSAGE

Our community members, donors and supporters make such an impact at Stevenson Memorial Hospital. It's thanks to you that we receive equipment upgrades when needed and implement new technology, creating efficiencies in patient care.

These initiatives put our patients first, and for that I thank you.

We were successful in launching our new Health Information System (Meditech Expanse) on December 1, 2018 in partnership with Markham Stouffville Hospital and Southlake Regional Health Centre. With this shared electronic medical records system, we are able to provide care to more patients in less time, leading to faster diagnoses and treatment.

I am also thrilled to report that on behalf of the Hospital, I submitted the Draft Stage 2 submission for our redevelopment to the Ministry of Health and Long-Term Care in December, 2018. We are very close to receiving an approval on our redevelopment project that I know our Hospital staff, patients and community desperately needs.

The future of Stevenson Memorial Hospital is bright. We have come so far thanks to you and I know that our community will continue to support us in times of need. We are in the midst of Transforming Stevenson, which is no small feat, but together we can make this unprecedented expansion a reality, featuring state-of-the-art equipment, a revitalized Emergency Department and new patient spaces.

Thank you again for your continued support of our Hospital.

With sincere thanks,

A handwritten signature in blue ink, appearing to read 'J. Levac'.

COMMUNITY SUPPORT

Donors

Thank you to the donors and volunteers who continue to help the Foundation with its new vision: Inspiring Community Giving for Hospital Excellence.

COMMUNITY SUPPORT

Partnerships

Through dedicated partnerships with our community supporters and donors who make our special events successful, we are able to educate and raise awareness of the hospital's needs, while motivating others to get involved.

YOUR DOLLARS AT WORK

Some of the critical equipment and technology purchased last year thanks to donor support includes:

- Beds, bedside tables and over-bed tables in the Medical-Surgical Unit as part of our ongoing Refurbish a Room Initiative.
- A rapid infuser for the Emergency Department, to provide fluids and medication to trauma patients.
- A fluid management system for the Operating Room, to be used primarily in gynecological procedures.
- A ventilator/BiPap Machine to assist patients who have trouble breathing on their own.
- Phase 2 of the 45 smart infusion pumps, to give them wireless capability.
- Two fetal heart rate monitors for use in the Obstetrics Department to monitor babies during labour and delivery.

REDEVELOPMENT

Including a transformational \$10M contribution from the County of Simcoe, our community continues to demonstrate its passion for a redeveloped hospital with corporate partners and donors, who since 2017 have committed more than \$15M in received donations and future pledges for Redevelopment.

Together, we have a strong vision for the future of Stevenson Memorial Hospital, centered on a revitalized hospital, with state-of-the-art equipment, and comfortable, modern patient spaces. We depend on the continued support of our whole community and compassionate donors like to you to make this incredible transformation a reality.

BY THE NUMBERS

The Stevenson Memorial Hospital Foundation actively supports the Stevenson Memorial Hospital's ability to set a new standard for community hospital care.

SAVING LIVES. CHANGING LIVES.

Your generosity means everything to our patients. Here are just a few messages of appreciation from some of the many people who have been touched by your compassion.

“

Thank you to doctors, nurses, phlebotomists, lab technicians, and maintenance staff, coffee corner volunteers and to all involved in 'running' a hospital. I have been to the ER several times and I'm very grateful for the care I received. Thank you.

MARGARET

“

Simply put, I owe my life to Stevenson Memorial. It was my second bout with a bowel obstruction and thanks to the skills of all concerned, I survived and will feel eternal gratitude to all, especially my surgeon, Dr. Keshoofy.

DOROTHY

“Your staff saved my life. It was very clear how well the nurses, doctors and midwives consult and communicate with each other. They really work together to make sure that their priority is the patient and their care. I cannot thank these people enough and I am so happy and lucky to continue to be a mom, wife, daughter and sister. I get to watch my boys grow up and I could not be more thankful for these wonderful people that came into my life at such a difficult time!”

RENEE

Renee was treated at SMH for invasive Group A Strep, just days after delivering her third son.

“Thankfully, I received exceptional care. The staff at SMH did an excellent job. They really looked after me and they were so caring. They did everything they could to make sure I was comfortable.

BOB

Bob spent four weeks at SMH, slowly regaining his strength and starting rehabilitation to help him learn to walk again, after being diagnosed with a rare Neuromuscular Manifestation of West Nile Virus Infection.
