our growing community**

TRANSFORMING OUR SPACE

Because of you, we can grow to meet the needs of our growing community

We began planning for the redevelopment of our hospital more than a decade ago. Today, we are making Stevenson Memorial Hospital's transformative vision into a reality. Our new and revitalized spaces will both reflect and support, the exceptional, high-quality healthcare Stevenson Memorial Hospital consistently provides and offer greater comfort and privacy for you, your family, and the community at large.

Once completed, our brand new, wrap-around addition will more than double the size of our hospital.

Here's what you and your family can expect to benefit from when the work is completed:

- ✓ A greatly expanded Emergency Department will triple in size and feature separate rooms
- ✓ Preservation of our helipad and a new ambulance bay
- ✓ Increased number of patient rooms in the Inpatient Care Unit
- ✓ Our Surgical Services Department will more than double in size
- ✓ An enhanced Birthing Unit with new labour and delivery rooms, reception and family/waiting area
- ✓ Renovations will also be made to many other service areas of the hospital

EMERGENCY DEPARTMENT

Our Emergency Department accounts for over half of all hospital visits. Built in 1964, it was meant to accommodate only 7,000 annual visits. Now, we are seeing close to 40,000 visits per year. The new, much larger Emergency Department will feature an expanded waiting area and an increase number of patient rooms.

Giving to our "Greatest Needs"

Stevenson Memorial Hospital is a community healthcare facility in New Tecumseth that services south Simcoe and surrounding communities. Like all Ontario hospitals, we depend on donations from people within the communities we serve to help purchase or upgrade equipment to help provide high-quality healthcare close to home.

Giving to our "**Greatest Needs**," a gift without conditions on how the donation may be used, allows us the flexibility to invest where it is needed most to make an impact on medical staff while continuing to improve community healthcare and save the lives of patients.

Because of you, we can provide exceptional healthcare close to home
